The GDB-03 training kit allows you to learn both the basic and the advanced functions of the GDS-3000 Series Digital Storage Oscilloscope (DSO). Following the training procedures of this training kit, you will quickly understand the basic operations of a DSO, and the unique features of the GDS-3000 Series, which represents a typical hi-tech DSO today.

The GDB-03 training kit is a signal generator board capable of producing waveforms, which contain various real-life scenarios you might encounter.

With the GDB-03 training kit and the included curriculums, you are able to acquire adequate knowledge in using a DSO with advanced features.
